

BOP Therapy Foundation provides funding for people that are unable to afford counselling and are not eligible for funding from any other source.

Counselling for children and young people are our highest priority, followed closely by families. Funding for counselling for individuals and couples is provided when funds permits.

Help is provided for people who are having difficulties and feel that they would benefit from counselling from an experienced and well trained counsellor.

Often eight sessions of professional counselling is enough to lift a family out of hopelessness and kick start motivation to change their circumstances and is enough time to get important support services involved and working together.

We receive limited funding from Ministry of Social Development and rely on funding support from donations to meet the increasing need for our services.

You can help us by making a one-off or regular donation. All donations over \$5.00 are receipted and are tax deductible. THANK YOU
